

Cyber Consultant

Our Cyber Consultants work closely with e2e-assure customers, reviewing and enhancing their security controls and helping them to develop their cyber maturity.

You will also support other internal teams, helping them to develop and improve our products and services, as well as being a subject matter expert for cyber within the business.

This is a very collaborative role; you will be sharing your knowledge with colleagues as well as providing considered feedback to other areas of the business.

You will need:

- An excellent eye for detail
- An interest in cyber security issues and trends
- A drive to constantly improve yourself and the processes you follow
- The ability to communicate clearly in English verbally and electronically, including technical concepts
- Experience working with SIEM, log monitoring tools, and vulnerability management processes

Useful to have:

Experience of directly engaging with customers and wider stakeholders, including representing the business on-site with the customer.

Experience of working in a SOC

Experience of networking administration including firewalls, switches, and IDS/IPS

Experience and knowledge of cloud computing

Operating system administration experience or previous experience working in an enterprise administration role.

Experience with Cloud Hosting Platforms such as Microsoft Azure, AWS or Google Cloud Workspace.
Sound knowledge of security and monitoring tools and experience using vulnerability management tools, such as Nessus or similar.

Sound knowledge of network-based forensics and concepts.

Familiar with host-based forensics and concepts.

Microsoft AZ-500, MS-500, or SC-200 certifications.

Additional benefits of working for e2e-assure:

- 25 days Annual Leave (plus Bank Holidays) per year
- Additional Annual Leave days for long service
- Enhanced maternity/paternity/sick leave and pay
- Matched pension contributions
- Cycle to work scheme (Cyclescheme)
- Tech purchase scheme
- Employee Assistance Programme for health/mental health
- Inclusive and friendly working environment, with enhanced support for neurodiversity
- Regular team and company events

Salary range

From £35k-60k, dependent on experience

Other information

e2e-assure is an equal opportunities employer. We understand the importance of diversity and inclusion to the success of e2e-assure as a business and are committed to providing a diverse working environment.

All our roles can be worked part time, full time, in the office or hybrid - we can be as flexible as you. The only thing we won't compromise on is a positive attitude and a good work ethic. Cyber Security is constantly changing, so the ability to adapt and find opportunities, even in a crisis, is essential.

After being provisionally offered a job, candidates will be DBS and background checked by a third-party, and must be willing to attain SC and NPPV3 clearances (we will put you through this process).

We expect e2e-assure employees to have a high standard of personal integrity, both during and outside work time, including how they present themselves online. We may conduct background and open-source checks to verify this.
